

Gathering

The most important part of gathering during the Autumn season is slowing down and setting aside time to enjoy the turning of the leaves, friends, family and the best that this area has to offer. Here are a few special places and offerings from local purveyors who understand the essence of wine country. They include seeing the countryside, playing a round of golf, visiting a pumpkin patch, trick or treating around town, and relaxing at a spot that uniquely captures the bounty of the season. Whether it is simple or elaborate, I wish you much beauty and happiness as you welcome these crisp days of fall and experience the Art of Leisure.
